Medication for Hypothyroidism

Finding information on thyroid medications can be confusing as pharmaceutical companies are constantly either merging with another pharmaceutical company or taking over another pharmaceutical company.

Medication for hypothyroidism can be manufactured by one company but distributed by another company, which means the name on the package might not be the same as the Patient Information Leaflet (PIL).

Also, when one pharmaceutical company takes over another one, it seems that they can use the original box but put the tablet strip in with a different company name on it.

Also, the PIL information can be confusing, again, because it may not be the same name on the box or the tablet strip.

We try to make things clearer for people but even we get confused a lot of the time!

Some of the Patient Information Leaflets (PIL) mentioned in this document have been obtained from the Medicines and Healthcare Products Regulatory Agency (MHRA) - https://tinyurl.com/mwu5hnak - and some from the Electronic Medicines Compendium (emc) website - https://tinyurl.com/56n3j7c4

For any medications not on our list you can visit these websites to search for the medication PILs.

Adverse Reactions

We are constantly being contacted by people who find themselves ill with various symptoms for seemingly no reason. However, once they let me know that their levothyroxine brand has been changed, I ask them to check the ingredients.

Some manufacturers have replaced lactose with mannitol and this can cause various symptoms in people such as nausea, diarrhoea and various pain issues.

Two other ingredients that appear to cause adverse reactions in some people are acacia powder and anhydrous levothyroxine.

Our recommendation is that you always check the box when you collect your next pack of levothyroxine (or liothyronine) and if it is a different box or a different name on the box, check the ingredients against your last pack, which you can find in the PIL.

If you start to get different symptoms to your normal hypothyroid symptoms, check the ingredients (if you haven't already) and make a note of them for future reference.

You could ask your pharmacy to swap the tablets but this is very hit and miss.

It is best to make an appointment with your GP to let them know that you have had an adverse reaction from that particular brand and would like them to put a note on your prescription that you should only be given the brand that did not cause adverse reactions.

If the new brand has caused adverse reactions, please fill out an MHRA Yellow Card - https://yellowcard.mhra.gov.uk/ - as this informs the MHRA of any adverse effects in medications. If they receive a lot about one particular medication, they should investigate.

Absorption of levothyroxine

There are some liquid levothyroxine brands that have less ingredients than tablets but these are generally more expensive. If you find that you are intolerant/allergic to several of the ingredients, you could ask your GP if they would prescribe a liquid levothyroxine but they may not agree to do this.

If you know of a brand of thyroid medication that is not on this list, please let us know by contacting us on info@thyroiduk.org

Manufacturer	Pfizer
Product Name	Cytomel - 5mcg, 25mcg, 50mcg tablets (Lactose Free)
Email	http://www.pfizer.com/contact/contact_us_support
Ingredients	Liothyronine sodium, calcium sulphate, gelatin, corn starch, stearic acid, sucrose, talc
Comments	Comes in 5mcg tablets, which some people find much easier. Pfizer have taken over King Pharmaceuticals. **Note:** We have been unable to confirm if King Pharmaceuticals have a TSE certificate which is required for import into the UK
PIL	https://tinyurl.com/52u46bzw

Manufacturer	Mayne Pharma
Product Name	Liothyronine - 5mcg, 25mcg, 50mcg tablets (Lactose Free)
Email	maynepharma@dlss.com
Ingredients	Liothyronine sodium, calcium sulfate, microcrystalline cellulose, hypromellose, talc, silicon dioxide
PIL	https://tinyurl.com/wgdtrgp

Synthetic Combination Replacements

Not generally available on the NHS in the UK unless you can persuade your GP to prescribe. These may be available from a private doctor (although they usually prefer the natural thyroid). This product would be a good idea for people who are allergic to pork and therefore who can't take any of the natural thyroid hormones.

Manufacturer	Roseway Labs
Product Name	Compounded Levothyroxine plus Liothyronine Thyroid Suspension (Lactose Free)
Email	info@rosewaylabs.com
Ingredients	Levothyroxine, liothyronine, olive oil, silica gel, cellulose, vitamin E acetate
Notes	A prescription medication that must state strength per ml of T4 and/or T3. 30mls of medication will have the required dosage calibrated to a 1ml dose. The shelf life is 30 days and the medication does not need to be refrigerated

European Brand (not licensed in the UK)

Manufacturer	Merck Healthcare Germany GmbH
Product Name	Novothyral - 75mcg, 100mcg tablets
Email	medicalpartner@merckserono.de
Manufacturers	Merck KGaA, Frankfurter Straße 250, 64293 Darmstadt
Ingredients	Levothyroxine sodium (T4), liothyronine sodium (T3), lactose monohydrate, maize starch, gelatin, croscarmellose sodium, magnesium stearate
Details	1 tablet Novothyral 75mcg contains 75mcg levothyroxine sodium and 15mcg liothyronine sodium 1 tablet Novothyral 100mcg contains 100mcg levothyroxine sodium and 20 mcg liothyronine sodium
PIL	https://tinyurl.com/3ppya4dd

Natural Thyroid Hormone Replacements

Manufacturer	Allergan
Product Name	Armour Thyroid - various strengths from 15mg (¼ grain) - 300mg (5 grains) tablets (Lactose Free)
Email	Not known
Ingredients	Thyroid tablets, USP (38 mcg levothyroxine (T4) and 9 mcg liothyronine (T3) per 60mg (1 grain) of thyroid), calcium stearate, dextrose, microcrystalline cellulose, sodium starch glycolate, opadry white
Details	Armour contains approximately 38mcg T4 and 9mcg T3 plus an X factor (something not yet understood). This means that patients taking Armour Thyroid are automatically getting T3 immediately into the system
PIL	https://www.allergan.com/assets/pdf/armourthyroid_pi

Manufacturer	Acella
Product Name	NP Thyroid – 15mg, 30mg, 60mg, 90mg, 120mg tablets (Lactose Free)
Email	npthyroid@acellapharma.com
Ingredients	38mcg levothyroxine (T4) and 9mcg liothyronine (T3) per grain of thyroid (or per 60mg of the labelled amount of thyroid), calcium stearate, dextrose (agglomerated), mineral oil
PIL	NP Thyroid flat PI 10-15-19A FPO

Manufacturer	Searchlight Pharma
Product Name	**THYROID® - 30mg, 60mg, 125mg tablets**
Email	General Questions: info@ECI2012.net Medical Questions: psq@ECI2012.net
Ingredients	Thyroid tablets, USP (35mcg levothyroxine (T4) and 8mcg liothyronine (T3) per 60mg (1 grain) of thyroid), desiccated thyroid containing lactose, derived from porcine thyroid glands, cornstarch, magnesium stearate, sugar, talc
Details	Gluten, paraben, sulfite and tartrazine free
PIL	Thyroid-PM-ENG-Oct2022.pdf

Manufacturer	Roseway Labs
Product Name	**Compounded Natural Desiccated Thyroid capsules - various strengths from 16.25 mg (¼ grain) - 130mg (2 grains) (Lactose and Gluten Free)**
Email	info@rosewaylabs.com
Ingredients	Natural desiccated thyroid of porcine origin; cellulose, fast green (E143)
Details	Free from lactose, gluten, preservatives. Capsules can be made with food dye upon request. Shelf life is 6 months The NDT ratio is 9mcg liothyronine and 38mcg levothyroxine per 1 grain. Slow-release capsules are also available
